Happy birthday Sephan!

The seventh of this month marked one more step for our dear director: we wish her happiness for her new year and we thank her for what she does for us!

Building of the new factory

ACH's main project at the moment is the construction of our new jam factory, which will be integrated in the same buildings of the home. It is progressing fast, thanks to a strong team of workers on site.

In the colors of ACH, the new factory will allow us to increase our production to meet a growing demand. More space, more equipment, more pots, and of course the possibility to welcome more disabled people!
The upper floor will be for the rooms

- The lower floor for the jam production

Our guest of the month: Francisco Covarrubias, filmmaker!

Right from Los Angeles, Francisco is a student in cinematography. He decided to make sense of his project by producing videos presenting various social initiatives around the world, which he said deserve to be heard and shared. We welcomed him for a week so that he has an authentic
experience of life here, work with the disabled people and the spirit of ACH. We can not wait to see the result! If you have a talent to highlight for ACH and you would like to live a strong and unforgettable experience, do not hesitate to send us a message and we will welcome you as soon as you wish!

The rainy season is in full swing

The city was well cleaned by strong monsoons that turned the area into a giant pool. All this makes the children happy, but not for the tuk-tuk drivers who have a pretty high chance to finish at the mechanic.
Also known as James Bond's Tuk-Tuk, it has the ability to ride on land as well as on sea. A real asset to ACH.

The life at the foyer

Panha carries Tino with difficulty because it is growing as fast as the new factory, it is hardly credible!
Coffee at the Selfie Container market: the place to be in Phum Russey!

“Spring rolls” lunch

Show and party at PSE
Football World Cup 2018

Below is an image of the famous match France-Belgium. As can be seen, thousands of supporters came to support their team on the stadium stage of the Boeung Tompun church.

Penalty of Hazard (aka Panha) against Lloris (aka Pom Poy)
This morning, Thun comes out of his room with a strong mind, with the firm conviction to change things in the country. A daring man who does not hesitate to assert his political opinions on the eve of the legislative elections (29 July).

Back to reality, it is Hun Sen's Cambodian People's Party which won the elections with 114 seats, leaving 6 seats for FUNCINPEC and 5 for the League for Democracy party. The other 17 candidate parties totaled 0% of the vote.
L'Irrésistible

Big changes at the factory with the departure at the beginning of the month of So-Cheat, former head of production.

We wish her all the best for the future, but we can not help this little heartache, after several years of working together at ACH and so many good memories that go far beyond the professional field. Chul Mouoy So-Cheat!

It was Mrs. Vandy who succeeded her. With her last experience in the factory, she knows the basics and quickly takes her place.

Mrs. Vandy at work

And let’s not forget that we are accompanied by Srey Nich and Srey Ty, PSE trainees who have been with us for two months now. They help us checking the jam stocks in the shops, help improve our products, make deliveries … as real little bees.

Srey Ty and Guilhem went to Prey Veng for a “Made in Cambodia” event organized by the Ministry of Commerce. We presented our association to Minister Pan Sorasak who particularly appreciated the ginger syrup.
Meanwhile at the factory, work goes on …

Pineapple/passion fruit recipe

Srey Nich and Kim Leang

Finally, we met a palm leaf box manufacturer in Svay Rieng who could become our regular supplier, allowing us to compete with the splendid packaging of Siem Reap shops. Some finishes and voila!

Objective: final result next month. See you then and take care!
